# ColorPartner GmbH   - Measuring Systems -

ColorPartner is a developer and manufacturer of colour measurement devices, laser distance measurement systems, wire winding systems and associated accessories.
ColorPartner was founded in 1993. Initial products were image and PostScript PC-interface systems for all kind of high end scanners.

Today we are producing in a broad range of industries: printing, wire, textile, chemical, ceramics and automotive industries. Wherever electronic, optical and automation know how is necessary.

Our colour measurement products are used and known worldwide:
Volkswagen Shanghai in China, Xerox in the U.S.A., EcoLab in Germany, ...

Persons of contact:
Mr. Wolfgang Schulz   <WS@colorpartner.de>   managing director
Mr. Ingmar Brumm   <IB@colorpartner.de>   managing director
Mr. Karsten Höfer   <KH@colorpartner.de>   production manager

Phone: ++49-431-200878-0

ColorScout A+

The ColorScout A+ is a XY measuring table, that can automate all the measurements you manually do now. This gives you more safety, comfort and frees you for other things to do.

It is best used in applications where you have to measure many patches (even multiple measurements for averaging) on a target. These targets can be made of paper, textiles, ceramics, plastics, metals, ... which are printed, coated, colored, ... There are many areas, where it can be used.

It is not only used for measuring colourimetric values, but also gloss, haze, thickness and others.
It is available in the standard sizes A4+, A3+, A2+ and 750 mm x 1050 mm, also we manufacture other sizes on request. Standard maximum measurement height (material thickness) is 30 mm.

Our free software ColorChart for easily creating and measuring charts has a rich featured Excel interface including macro call. If there is any function, you would like to see in ColorChart, please contact us.

The ColorScout A+ has already been successfully installed at many customer sites like Agfa, Armstrong World Industries, Atlantic-Zeiser, BASF, Bayer, Canon, Ceramiche Gardenia Orchidea, CGS, Color Control Network, Colorgate, ColorSolutions, DIC, Ecolab, Epson, ErgoSoft, Euro Digital, Eurofins, Fogra, FXcolors, GMG, Heidelberger, Henkel, hp, IDEAlliance, Konica Minolta, L'Oréal, Merck, NexPress, Océ, Procter & Gamble, Schlenk, Stork, Sun Chemical, Swansea University, Tampo Mechanika, Thierry, Volkswagen, Wide Gamut, Xerox, X-Rite, ...

Here is a shortened list of the devices, which are supported by the ColorScout A+ (We adapt further devices on request):

Byk-Gardner:	SpectroEye	X-Rite:
old micro tri gloss	D19	520, 528, 530, 538
new micro TRI gloss		962, 964, 939
color guide	KonicaMinolta:	938, 948, 968
spectro guide	CM-2300d	Ci52, Ci62/4, Ci64UV
BYKmac	CM-2500c, CM-2500d	i1 pro 2
	CM-2600d	eXact
Datacolor:	CM-700d	MA68-II
Mercury	FD-5 / FD-7	MA-98
Check, Check II		SP61, SP62, SP64
	Techkon:	VS-450
GretagMacbeth:	SpectroDens 1 - 5	
Spectrolino	SpectroPlate	Others and special
EyeOne		solutions on request

If you need any special solution like sample holder, other sizes, bar code support, robot system for automatic sample handling, ... , please don't hesitate to contact us!
ColorScout A+ for VS450
